SUPPLEMENTAL SHOW CAUSE ORDER

Dear Mr. Katz:

On September 7, 2022, the United States Patent and Trademark Office (“USPTO” or “Office”) issued a Show Cause Order (“2022 Show Cause Order”) ¹ to Shenzhen Chenhaiyun Tech. Co., Ltd. subsidiaries Shenzhen Seller Growth Network Tech. Co., Ltd., Shenzhen Qianhai Bishengdao Network Tech. Co., Ltd., and Shenzhen Qianhai Be-Victory Network Tech. Co., Ltd., and Chenhai Cloud IIPTO² (collectively, “Seller Growth”),

¹ A redacted publicly-available copy of the September Order and its exhibits is available at: https://www.uspto.gov/sites/default/files/documents/tm-show-cause-order-shenzhen-seller-growth-network-tech_0.pdf.

² Available evidence indicates that Respondents are also operating their business under another alias, Chenhai Cloud (IIPTO), touting many of the same accolades they include on the original Sellergrowth.com webpage.

and their employees, agents, officers, or affiliates (collectively, “Respondents”). The order explained why the USPTO believe that these parties violated the USPTO’s rules concerning signatures, certification, practice and representation of others in trademark matters,³ by knowingly (1) engaging in the unauthorized practice of law before the USPTO in trademark matters, (2) providing material false information in trademark submissions, and (3) circumventing USPTO Rules. The available facts and evidence indicate Respondents’ intent was to deceive the USPTO into believing the applications were proper for the purpose of obtaining trademark registrations that the applicants would not otherwise have been entitled to receive.

Following the issuance of the 2022 Show Cause Order, Respondents requested and were granted two deadline extensions to file a response. On November 2, 2022, Respondents timely filed a response to the 2022 Show Cause Order, which is addressed below.

Additional evidence regarding Respondents’ activity before the Office demonstrates that the misconduct is ongoing. To grant Respondents an opportunity to address this additional information, the USPTO is issuing this Supplemental Show Cause Order, which fully incorporates the 2022 Show Cause Order and its exhibits by reference.

Respondents are required to provide a written response to this Supplemental Show Cause Order, providing arguments and evidence to address why the USPTO should not immediately sanction Respondents pursuant to 37 C.F.R. § 11.18(c) and take other corrective actions in accordance with the Terms of Use for USPTO Websites.⁴

I. Relevant Legal Requirements

As noted in the 2022 Show Cause Order, all submissions to the USPTO in trademark matters are governed by U.S. trademark laws and the regulations governing practice in trademark matters before the Office, including the rules concerning signatures, certification, and representation of others (collectively, “USPTO Rules”). See *generally* 15 U.S.C. §§ 1051 *et seq.*; 37 C.F.R. Parts 2, 11.

³ Respondents assert that Shenzhen Qianhai Be-Victory Network Technology Co., Ltd. is the alias of Shenzhen Qianhai Bishengdao Network Technology Co., Ltd. (“Bishengdao”), and that its role has been allegedly limited to signing service contracts with customers and attorneys for filing trademark applications in the United States. Respondents further contend that neither Mr. Yongchao Wang nor Bishengdao take any part in the daily operation of Respondents’ business “or were involved in any of the questionable acts outlined in the Show Cause Order,” that Mr. Gao Feng ceased to be a Seller Growth employee in November 2021, and that Mr. Yushuo Sun is now deceased. Respondents therefore requested removal of these names as parties in any final order that may issue. Respondents have not provided any information or evidence to rebut these parties’ involvement in the misconduct described in the September Order; accordingly, unless or until additional information and evidence to substantiate these claims are provided, Respondents’ request is denied. See *also* screenshots previously attached to the 2022 Show Cause Order as Exhibits A and G-I.

⁴ An expanded list of U.S. Trademark Application Serial Numbers believed to be directly affected by Respondents’ alleged misconduct is attached hereto as Exhibit A. The list is not exhaustive because Respondents continue to make new submissions.

Only attorneys who are active members in good standing of the bar of the highest court of a U.S. state or jurisdiction may practice before the USPTO in trademark matters on behalf of others. 37 C.F.R. §§ 2.17(a), 11.1, 11.14(a). Individuals who are not U.S.-licensed attorneys may not (1) give advice to an applicant or registrant in contemplation of filing a U.S. trademark application or application-related document; (2) prepare or prosecute any U.S. trademark application, response, or post-registration maintenance document; (3) sign amendments to applications, responses to Office actions, petitions to the Director, or request to change correspondence information; or (4) authorize any other amendments to an application or registration.⁵ See 37 C.F.R. § 11.5(b)(2). The USPTO Rules further require that foreign-domiciled applicants, registrants, or parties to proceedings before the Office, are required to be represented by a qualified attorney, licensed to practice law in the United States (“U.S. Counsel Rule”). 37 C.F.R. § 2.11(a).

USPTO Rules require that all signed documents submitted to the USPTO in a trademark matter must comply with Rule 2.193 and must be *personally* signed or the electronic signature must be *personally* entered by the named signatory. 37 C.F.R. §§ 2.193(a), (c); Trademark Manual of Examining Procedure (“TMEP”) § 611.01(b). A person may not delegate the authority to sign trademark-related submissions, and no party may sign the name of another. See *In re Yusha Zhang*, 2021 TTAB LEXIS 465, *10, *13 (Dir. USPTO Dec. 10, 2021); *In re Dermahose Inc.*, 82 USPQ2d 1793, 1796 (TTAB 2007); *In re Cowan*, 18 USPQ2d 1407, 1409 (Comm’r Pats. 1990); see also TMEP § 611.01(b)-(c). An application or other trademark submission that is signed by a person other than the named signatory, or a person determined to be an unauthorized signatory, is improperly executed, cannot be relied upon to support registration. See *Zhang*, 2021 TTAB LEXIS 465 at *35; *Ex parte Hipkins*, 20 USPQ2d 1694, 1696-97 (BPAI 1991); *Cowan*, 18 USPQ2d at 1409.

The USPTO relies on the truth and accuracy of the submissions made during examination to fulfill its mandate to register marks that comply with U.S. trademark law. In determining whether a mark is eligible for registration and an applicant has complied with all requirements for registration, the USPTO relies upon the truth and accuracy of submissions made during examination. See *Norton v. Curtiss*, 433 F.2d 779, 794, 167 USPQ 532, 544 (CCPA 1970) (“With the seemingly ever-increasing number of applications before it, the [USPTO] . . . must rely on applicants for many of the facts upon which its decisions are based.”). The application form includes explicit averments requiring acknowledgement and a declaration that must be signed by a proper signatory pursuant to 37 C.F.R. § 2.193. The averments include, among other things, that the facts set forth in the application are true. See 37 C.F.R. §§ 2.33(a)-(b). The information being attested to includes facts material to registrability, such as a party’s claim of ownership of the mark, right to use the mark in connection with the identified goods and services, and the use or bona fide intention to use the mark in commerce, all of which are statutory prerequisites for obtaining registration. See 15 U.S.C. §§ 1(a)(3), 1(b)(3).

⁵ While there is a limited exception for Canadian agents or attorneys who have been granted reciprocal recognition to practice before the Office in trademark matters for Canadian filers, that exception does not apply here.

In addition, an application for registration of a trademark filed with the USPTO must be made by the owner of the mark or a person who has a bona fide intention to use the mark in commerce. See 15 U.S.C. §§ 1051, 1126(d)-(e), 1141f(a); 37 C.F.R. §§ 2.33(b), 7.26. “[R]egistration by one who did not own the mark at the time of filing renders the underlying application void ab initio.” *Lyons v. Am. College of Veterinary Sports Med. and Rehab.*, 859 F.3d 1023, 1027, 123 USPQ2d 1024 (Fed. Cir. 2017), *cert. denied*, 138 S. Ct. 366 (2017). For a use-based application, the mark must be in use as of the filing date of the application and specimens of the mark as actually used in commerce must be provided. 15 U.S.C. § 1051(a). For an intent-to-use application, the applicant must have a bona fide intention to use the mark in commerce and must eventually use the mark in commerce and provide specimens showing that use. 15 U.S.C. § 1051(a). An inaccurate or false claim of use or bona fide intent to use, or a use claim supported by a fake or mockup specimen or improper signature, does not meet the filing basis requirement and renders the application void ab initio and any resulting registration invalid. *Aycock Eng’g Inc. v. Airflite*, 560 F.3d 1350, 1357, 90 USPQ2d 1301, 1305 (Fed. Cir. 2009)(failure to render services and meet the use requirement at the time of filing renders application void ab initio); *Gay Toys, Inc. v. McDonald’s Corp.*, 582 F.2d 1067, 1068-69, 199 USPQ 722, 723 (CCPA 1978) (application void because applicant not using mark in commerce at the time of filing where evidence of use comprised a plaster mockup of the identified toy); *Hole In 1 Drinks, Inc. v. Lajtay*, 2020 USPQ2d 10020, at *10 (TTAB 2020) (underlying application void ab initio where individual registrant, at the time application was filed, lacked a bona fide intent to use the mark alone); *Cowan*, 18 USPQ2d at 1409 (use claim supported by improperly signed declaration is not properly supported and cannot be accepted); see *also* 37 C.F.R. § 2.91(c)(9)(v) (evidence suggesting a verification accompanying an allegation of use was improperly signed supports a finding that that mark was not in use in commerce at the time the verification was filed).

Further, under USPTO Rules, any party who presents a trademark submission to the USPTO is certifying that “[a]ll statements made therein of the party’s own knowledge are true, all statements made therein on information and belief are believed to be true, . . . [and] [t]o the best of the party’s knowledge, information and belief, formed after an inquiry reasonable under the circumstances, . . . the paper is not being presented for any improper purpose” and “[t]he allegations and other factual contentions have evidentiary support.” 37 C.F.R. § 11.18(b); see *also* 37 C.F.R. § 2.193(f) (noting that presentation of any document to the USPTO constitutes certification under 37 C.F.R. § 11.18(b)). Knowingly or negligently submitting a document that includes false, fictitious, or fraudulent information, including domicile information, attorney information, signatory information, applicant information, or claims of use (or intent to use), violates 37 C.F.R. § 11.18(b)(1), and doing so without evidentiary support or with intent to circumvent USPTO Rules violates 37 C.F.R. § 11.18(b)(2). See *also* 37 C.F.R. § 2.11(e). Violations may jeopardize the validity of the application or registration and may result in sanctions under 37 C.F.R. § 11.18(c). See *also* 37 C.F.R. § 2.193(f).

Also, engaging in a scheme to violate or circumvent USPTO rules or knowingly or willfully making false representations of material fact to obtain a trademark registration constitutes fraud. Such actions involve an intent to deceive the USPTO into believing the application requirements are satisfied and to examine the application when the applicant was not in fact entitled to have the application examined or a registration issued. See *In re Bose Corp.*, 580 F.3d 1240, 1243, 91 USPQ2d 1938, 1939 (Fed. Cir. 2009); *Chutter v. Great Concepts, LLC*, 2021 USPQ2d 1001 at *25 (TTAB 2021)(holding that “willful” includes reckless behavior and “as a matter of law that reckless disregard satisfies the requisite intent for fraud on the USPTO in trademark matters”), *rev'd on other grounds*, 2023 USPQ2d 1215 at *9 (Fed. Cir. 2023). A trademark registration obtained by fraud is invalid and the underlying application is void. See *Grand Canyon W. Ranch, LLC v. Hualapai Tribe*, 78 USPQ2d 1696, 1697 (TTAB 2006) (“The case law is clear that holding an application to be void is an appropriate remedy when the pleaded ground [] is fraud”). With respect to sanctions, although conduct need not rise to the level of fraud to warrant sanctions, a finding of fraud warrants the most serious sanctions available. See *Zhang*, 2021 TTAB LEXIS 465 at *35 (“A scheme involving intentional circumvention of the USPTO Rules and defrauding the USPTO is the epitome of egregious misconduct”).

In addition, any party who uses USPTO systems, including USPTO.gov and the Trademark Electronic Application System (TEAS), is bound by both the Terms of Use for USPTO websites and the USPTO Trademark Verified USPTO.gov Account Agreement (collectively, the “Terms of Use”). See <https://www.uspto.gov/terms-use-uspto-websites>; <https://www.uspto.gov/sites/default/files/documents/TM-verified-account-agreement.pdf>.

Under the Terms of Use, registration for and use of a USPTO.gov account is limited to the individual to whom the account is registered, and the registered individual is responsible for all activities occurring under that account and any sponsored accounts. Use of a USPTO.gov account to submit, access, or alter information exceeding one’s authority not only breaches the Terms of Use, but also violates 37 C.F.R. §§ 2.193(f) and 11.18(b).

II. Respondents’ November 2, 2022 Response is Unpersuasive and Fails to Address the Serious Nature of Respondents’ Misconduct.

In their response to the 2022 Show Cause Order, Respondents assert that their conduct was the result of “[n]ot knowing U.S. trademark law, the U.S. legal market, or English,” and because they “hired three negligent and incompetent U.S.-licensed attorneys who claimed they knew U.S. trademark law.” However, in the same response and on multiple pages of their website, Respondents acknowledge that they have been assisting Chinese applicants in prosecuting trademark applications before the USPTO for years, and have been advertising their alleged expertise on registering marks in this and other countries. See Exhibit B (consisting of screenshots of archived views of Respondents’ webpages and social media page stating that they have ten years of experience in offering U.S. trademark registration services).

In support of the arguments, Respondents provided a declaration signed by an Executive Vice President of Shenzhen Seller Growth Network Tech. Co. and copies of contractual agreements with the three U.S.-licensed attorneys identified in the 2022 Show Cause Order, namely, Ms. Di Li, Ms. Kathy Hao, and Ms. Elizabeth Yang. However, neither the declaration, nor copies of Respondents' contracts with Ms. Li, Ms. Hao, or Ms. Yang absolve Respondents of their misconduct. Respondents engaged in the unauthorized practice of law, knowingly, intentionally, and improperly by entering approximations of the electronic signatures of attorneys and applicants on submissions, and misused USPTO systems to carry out their misconduct.⁶ See *generally*, 2022 Show Cause Order.

In addition, although Respondents frame their conduct in relation to the August 2019 implementation of the U.S. Counsel Rule,⁷ Respondents' arguments are misplaced. Respondents are not U.S.-licensed attorneys and thus are not, and never have been, authorized to practice before the Office in trademark matters on behalf of others. See 5 U.S.C. § 500; see *also* 37 C.F.R. §§ 11.1, 11.14. For more than a decade, the USPTO Rules have been abundantly clear that only individuals meeting the requirements of 37 C.F.R. § 11.14 are authorized to represent others before the USPTO in trademark cases. Compare TMEP § 608.01 (July 2022 ed.), with § 608.01 (October 2012 edition) (both indicating that “[a]n individual who does not meet the requirements of 37 C.F.R. § 11.14 cannot: prepare an application, response, . . . or other document to be filed in the USPTO; sign amendments, responses to Office actions, petitions to the Director under 37 C.F.R. § 2.146 . . . or otherwise represent an applicant, registrant, or party to a proceeding in the USPTO.”). Moreover, the implementation of the U.S. Counsel Rule did not alter the fact that Respondents, who are not U.S.-licensed attorneys, were never authorized to practice before the Office in trademark matters. See *also* 37 C.F.R. §§ 2.11(a), 11.5(b). Although foreign-domiciled applicants and registrants were not required to retain U.S.-licensed attorneys prior to August 3, 2019, non-attorney third parties were at all relevant times prohibited from representing others before the USPTO. See 37 C.F.R. § 11.5(b)(2). Respondents' description of its own conduct before and after the implementation of the U.S. Counsel Rule confirms that they were directly engaged in the unauthorized practice of law before the USPTO and that they improperly entered the signatures of others, including U.S.-licensed attorneys, in connection with various trademark submissions, including applications, responses to Office actions, and Change of Address or Representation (“CAR”) forms.

Respondents admit that before August 2019, they assisted local Chinese applicants in prosecuting trademark applications before the USPTO, violating USPTO Rules. In the

⁶ Even if for the sake of argument, Respondents were misinformed, their claimed ignorance of the law provides no defense or excuse for their misconduct. *Zhang*, 2021 TTAB LEXIS 465 at *13; see *also* *United States v. Int'l Min. & Chem. Corp.*, 402 U.S. 558, 563 (1971) (“The principle that ignorance of the law is no defense applies whether the law be a statute or a duly promulgated and published regulation.”); *Barlow v. United States*, 32 U.S. 404 (1833) (stating “[i]t is a common maxim, familiar to all minds, that ignorance of the law will not excuse any person, either civilly or criminally”); *In re Whittelsey*, 83 F.2d 894 (C.C.P.A. 1936) (“It is a familiar rule that ignorance of the law is not an excuse for a course of action.”).

⁷ Requirement of U.S. Licensed Attorney for Foreign Trademark Applicants and Registrants, 84 Fed. Reg. 31498, 31511 (July 2, 2019), accessible at: <https://www.govinfo.gov/content/pkg/FR-2019-07-02/pdf/2019-14087.pdf> (effective August 3, 2019).

context of their conduct prior to August 2019, Respondents state in their response, “Seller Growth is a China-based company that assisted local Chinese applicants in filing trademark applications with the USPTO” and later admit, “Seller Growth is a China-based organization and thus, none of its staff has any U.S. legal training”. After August 2019 and until about December 2020, Respondents relied upon the counsel of certain U.S.-licensed attorneys, including Ms. Li, Ms. Hao, and Ms. Yang, to assist them with trademark prosecution before the USPTO⁸ several other U.S.-licensed attorneys, and since that time, have “completely ceased all work that could be considered misconduct and [are] now merely providing translation services to customers for these trademark applications.”

Contrary to Respondents’ assertions, Respondents’ conduct indicates that they were aware of the laws and regulations governing the prosecution of trademark applications and purposefully devised methods to conceal their activities and circumvent USPTO Rules. See, e.g., 2022 Show Cause Order, Exhibit D; see also Exhibit B (consisting of archived screenshots of Respondents’ webpages and social media page, on which they note Respondents’ ten years of experience in U.S. trademark registration services). On at least one occasion, Respondents sent a message to attorneys soliciting U.S.-licensed attorneys’ bar credentials for use in trademark submissions. See 2022 Show Cause Order, Exhibit D (including a statement indicating that Respondents had their own trademark prosecution team and merely wanted to use the names and bar credentials of U.S.-licensed attorneys). Although Respondents have attempted to shift responsibility for improper activities solely to Ms. Li, Ms. Hao, and Ms. Yang, Respondents’ were taking steps to circumvent the USPTO’s Rules governing representation on July 21, 2019, and clearly before the execution dates of the contracts with Ms. Li, Ms. Hao, and Ms. Yang on July 26, 2019, October 16, 2019, and October 17, 2019, respectively.

Several provisions in Respondents’ contracts with Ms. Li, Ms. Hao, and Ms. Yang further underscore Respondents’ willful disregard for USPTO Rules. For instance, Respondents specifically contracted with the attorneys for the disclosure and use of their bar information, thereby allowing Respondents to sign and submit trademark forms through TEAS, in violation of USPTO Rules.⁹

The response includes several inconsistent characterizations of Respondents’ conduct. Remarkably, Respondents claim that they did not know U.S. trademark law and were

⁸ The response repeatedly suggests that Respondents retained the attorneys, though the significance of this claim is not clear. USPTO Rules make clear that attorneys who enter appearances in patent and trademark matters represent the *applicants* and *registrants*, and not the foreign firm which may have facilitated any relationship. See 1421 OG 2690, 91 (Dec. 29, 2015) (“The fact that a U.S. practitioner receives instructions from the inventor or trademark owner through a foreign attorney or agent does not change the fact that the client is still the inventor or trademark owner rather than the foreign attorney or agent.”). Even if, *arguendo*, these attorneys were also working on behalf and under the direction of Respondents, the hiring of an attorney to counsel Respondents would not transform Respondents’ employees into authorized attorneys or otherwise permit them to practice before the Office.

⁹ Respondents included provisions in their contracts which stated Ms. Di Li, Ms. Kathy Hao, Ms. Elizabeth Yang “agree[] that [Respondents] shall sign the name of the lawyer in the completed information” and that “[Respondents] shall fill in all the information of [Ms. Li/Ms. Hao/Ms. Yang] after signing.”

unfamiliar with the English language, while simultaneously admitting to having helped trademark applicants in China register their marks in the United States for years prior to August 2019. In their response, Respondents indicate even after August 2019, their “consultants” and “customer service representatives” purportedly reviewed trademark applications for “anything incorrect” before they filed submissions through TEAS. However, Respondents claim in the same response that they only provided translation services for trademark applicants (while, somehow, also alleging unfamiliarity with English). As discussed in detail below, the contracts between Respondents and the applicants that retained Respondents make it clear that Respondents were obligated to perform much more than translation services and remained heavily involved in all steps of prosecution. See Part III.A *infra*. Although Respondents claim that they retained at least eight additional U.S.-licensed attorneys to facilitate applicants’ trademark prosecution, available evidence demonstrates that Respondents have not corrected their conduct and continue to engage in the unauthorized practice of law.¹⁰

Respondents further argue that 60 trademark applications currently suspended in light of the 2022 Show Cause Order should be released from suspension since the “applicants were completely innocent” and “were completely reliant on the U.S.-licensed attorneys [Respondents] chose.” Respondents’ own statements highlight some of the significant problems with the scheme they contrived. Because Respondents’ employees were the only individuals reviewing and submitting thousands of trademark applications and other related submissions to the USPTO, and often affixed false electronic signatures to these submissions, the USPTO cannot rely on any evidence, information, claims of ownership, or claims of use. Based on available information and evidence, the defects are of a type that invalidate the involved applications and cannot now be cured. Thus, Respondents are not only responsible for jeopardizing the validity of these applications or resulting registrations, they are also responsible for the consequences that may result from their misconduct. Furthermore, even if individual applicants or registrants were not aware of the nature and scope of Respondents’ misconduct, the acts and omissions of a representative who files documents with the USPTO, including a representative not authorized under USPTO rules, are imputed to the applicant or registrant. See, e.g., *Pioneer Inv. Servs. Co. v. Brunswick Assoc. Ltd. P’ship*, 507 U.S. 380, 396-97 (1993) (reciting the principle that generally “clients must be held accountable for the acts and omissions of their attorneys” and a party cannot “avoid the acts or omissions of [their] freely selected agent.”); *Carrini Inc. v. Carla Carini S.R.L.*, 57 USPQ2d 1067, 1072-73 (TTAB 2000) (sanctioning both applicant and opposer after issuing a Show Cause Order concerning misconduct of their respective representatives before the Board).

III. Additional Evidence Further Demonstrates that Respondents Willfully Violated USPTO Rules by Engaging in the Unauthorized Practice of Law Before the Office and Further Violated USPTO Rules and USPTO.gov Terms of Use by Providing False or Fictitious Information in Trademark Submissions.

¹⁰ Respondents list their new U.S.-licensed attorneys as [REDACTED].

A. Respondents engaged in widespread unauthorized practice of law before the USPTO.

Respondents' operation offers legal services in China, including international tax and intellectual property services to individuals and companies in China and other countries, including offering trademark registration services in the United States. See 2022 Show Cause Order, Exhibits A and C. These practices include soliciting customers to use its services to file trademark applications in the United States, in violation of USPTO Rules by practicing before the Office in trademark matters despite being unqualified to do so. See 37 C.F.R. §§ 11.1, 11.14.

Respondents' misconduct was highlighted in several disciplinary orders issued by the USPTO's Office of Enrollment and Discipline ("OED") reprimanding U.S.-licensed attorneys who contracted with Respondents in furtherance of the scheme. These disciplinary orders describe violations of the USPTO Rules of Professional Conduct by attorneys, such as, enabling or aiding the unauthorized practice of law and Respondents' efforts to disguise rule violations. See *generally* 37 C.F.R. Part 11. The OED orders describe how Respondents directly prosecuted trademark applications before the USPTO by: (1) entering into improper arrangements with certain U.S.-licensed attorneys for misuse of the attorneys' licensing credentials; (2) entering approximations of the actual attorneys' electronic signatures on submissions to the USPTO, and/or (3) sharing USPTO.gov accounts to file trademark submissions and correspond with the USPTO. See 2022 Show Cause Order, Exhibits G-I.

In July 2022 and May 2023, respectively, OED disciplined attorneys Weibo Zhang and Jingfeng Song, whose actions were linked to Respondents' improper conduct. See *In the Matter of Weibo Zhang*, Proceeding D2021-14 (Jul. 11, 2022), available at [https://foiadocuments.uspto.gov/oed/Zhang-Final-Order-\(D2022-16\)-Redacted.pdf](https://foiadocuments.uspto.gov/oed/Zhang-Final-Order-(D2022-16)-Redacted.pdf), and *In the Matter of Jingfeng Song*, Proceeding D2023-10 (May 1, 2023) [https://foiadocuments.uspto.gov/oed/Song-Final-Order-\(D2023-10\)-dated-05-01-23-and-mailed-5-04-23-Redacted.pdf](https://foiadocuments.uspto.gov/oed/Song-Final-Order-(D2023-10)-dated-05-01-23-and-mailed-5-04-23-Redacted.pdf), attached hereto as Exhibit C. The Weibo Zhang and Jingfeng Song orders describe additional examples of Respondents' misconduct, naming Respondents as one of entities that used Mr. Zhang's and Mr. Song's name, bar credentials, or approximations of their electronic signatures, all in violation of USPTO Rules.

For instance, in one of the orders, Mr. Zhang acknowledged how he "established a system whereby the relevant Agent [including Respondents] received Office Actions via email directly from the USPTO. [Mr. Zhang] relied on the Agents to communicate with applicants about the Office Actions" and he "did not take action on behalf of applicants with respect to Office Actions unless he received a draft response from an Agent." Likewise, the order related to Mr. Song disclosed how he "allowed [Respondents] to enter his name on over

700 trademark applications in violation of the USPTO trademark signature rules.”¹¹ *Accord* 2022 Show Cause Order, Exhibit E (statements by attorney Elizabeth Yang, explaining how Respondents engaged in the unauthorized practice of law, misappropriated her attorney bar credentials, directly signed submissions, gave advice to applicants in contemplation of filing trademark applications, prepared and prosecuted trademark applications, prepared and submitted arguments and amendments in trademark matters, and communicated with the USPTO on behalf of clients).

Respondents’ solicitation message referenced in Exhibit D to the 2022 Show Cause Order, which was intended to reach various U.S.-licensed attorneys, alludes to the much of the same filing method described in each of the OED orders. The message explains how an email address controlled by Respondents could be used to directly receive correspondence and that Respondents would handle filings and responses. Respondents also stated in the solicitation message:

We have our own US trademarks application team. Lately, the US Trademark Office came out with new application requirements, and we need the help of US lawyers; we do not need you to handle any applications for us, what we need is to use a US attorney’s information as our US agent information in applying for US trademarks; nor do we need you to handle responses to documents from the examining and verifying attorneys, all you have to do is forward the documents to us, and the price is negotiable.

Id.

Because these disciplinary orders are directed solely to the identified attorneys and relate only to their professional obligations, these disciplinary orders do not directly address Respondents’ misconduct or the negative impact of their conduct on the integrity of the trademark register.

In their November 2, 2022 response, Respondents notably did not deny sending this solicitation email, nor did Respondents disavow the methods used to circumvent the USPTO Rules, particularly those involving representation of others in matters before the Office. Respondents even set forth this arrangement in their service contracts with applicants, stating that Respondents “shall be responsible for the submission of the trademark application documents under this contract and the delivery of the trademark application acceptance letter, communication of the examiner’s opinion, notifying of the trademark publication time, and the receiving of the trademark registration certificate” in addition to “fil[ing] the trademark applications normally, and send[ing] the obtained official acceptance letter to [the applicant].”¹² See Exhibit D (copy of contract for trademark

¹¹ To the extent this order identifies trademark applications or registrations different than those identified in an OED disciplinary order, these proceedings differ in the scope of issues presented and parties involved. See 37 C.F.R. § 11.18(c).

¹² While a U.S.-licensed attorney may rely on instructions from the applicant’s foreign attorney or agent as relayed from the trademark owner, the U.S.-licensed attorney is ultimately responsible for the certification and reasonable inquiry into the underlying facts contained in the submission under 37 C.F.R. § 11.18, and

registration services between Shenzhen Seller Growth Network Tech. Co., Ltd. and a potential applicant for a U.S. trademark). This contract illustrates that Respondents entered into agreements to perform work falling squarely within the definition of “practice before the Office” in trademark matters, particularly by agreeing to “conduct inquiry about the trademarks and classes, etc. provided by [the applicant] and conduct preliminary analysis according to the inquiry results. [Respondents] will inform [the applicant] of the inquiry and preliminary analysis results and make suggestions to [the applicant]. [Respondents’] inquiry and preliminary analysis of the trademark is only for [the applicant’s] reference.” *Id.*; 37 C.F.R. § 11.4(b).

The contract goes further, improperly delegating authority from the applicant to Respondents via “plenipotentiary power of attorney to handle matters of trademark application . . . [including granting Respondents] plenipotentiary power of attorney to choose the lawyer or other agency institution in the target country on behalf of [the applicant], and represent [the applicant] in the specific matter of communicating with the lawyer or other agency institution in the target country.” *Id.* In such an arrangement, any applicants would necessarily be kept isolated from their purported attorneys without opportunity to receive qualified legal consultation or be informed of the progress of their application. Relying on this improper plenipotentiary power, Respondents would “stand in” for the applicants and registrants, signing the names of others and generally acting as attorneys before the USPTO despite being unqualified to do so.

Respondents’ arrangement violates USPTO Rules, because non-attorneys are not permitted to represent others before the Office. See 37 C.F.R. §11.5(b)(2); see also TMEP §§ 608, 611. The USPTO explained this point further *In re Textron Inc.*, noting that “[a]lthough [a non-attorney] may be endowed with the authority to bind a corporation in its business affairs as to third parties, the Trademark Act [and USPTO Rules] provide[] that the action in question is valid only when performed by a specific category of persons with no indication that there may be exceptions.” 183 U.S.P.Q. 301 (Comm’r Pats. 1974). Moreover, “an individual that is not licensed to practice law cannot use representative devices ‘as an artifice for the unauthorized practice of law.’” See *Dutschmann v. City of Waco*, 2022 U.S. Dist. LEXIS 14736, at *2 (W.D. Tex. Jan. 27, 2022); accord *Weber v. Garza*, 570 F.2d 511 (5th Cir. 1978) (a grant of a “power of attorney” for a particular purpose to a third-party does not confer upon that third-party the privileges of an attorney licensed to practice law); see also, *Steeves v. United States*, 2022 U.S. App. LEXIS 20091, at *6 (Fed. Cir. 2022), *cert. denied*, 143 S. Ct. 2464 (2023); ; *Burruss v. Hawkins*, 2023 U.S. Dist. LEXIS 9111, at *10 (S.D. Tex. Jan. 19, 2023) (each finding that despite any pre-existing relationship or agreement between parties, a non-attorney may not represent another before a tribunal when a license to practice law is required or to present, sign, or file legal documents on behalf of others). As such, when Respondents submitted documents and entered the signatures of purported trademark applicants and various attorneys, Respondents engaged in the unauthorized practice of law, regardless

for submitting the documents through electronic filing systems using the USPTO.gov account registered to the attorney.

of any underlying agreements with purported trademark owners or the attorneys whose names and bar credentials they used. See 5 U.S.C. §§ 500(b), (d); 37 C.F.R. §§ 2.17(a), 11.14(a), (e).

B. Respondents improperly entered the signatures of others and provided false or fictitious information in trademark submissions to the USPTO to willfully conceal their unauthorized practice of law.

The available evidence indicates that Respondents attempted to mask their unauthorized practice of law by improperly entering the electronic signatures of others, including multiple U.S.-licensed attorneys, on TEAS form submissions and declarations in trademark filings in violation of USPTO Rules. Filing data supports the conclusion that Respondents filed over 53,205 submissions directly with the USPTO, often improperly entering the signatures of third-party attorneys as well as applicants.¹³ See Exhibit A. Moreover, Respondents were aware of the impropriety of their conduct, willfully concealing their involvement in trademark proceedings by providing false information and signatures for the purpose of circumventing USPTO Rules that prohibit non-attorneys from prosecuting trademark related submissions on behalf of others. Respondents' own website at <http://www.sellergrowth.com> documents their awareness of USPTO Rules on representation, stating in multiple places on this website that trademark applicants with a foreign domicile must have their applications prosecuted by a U.S.-licensed attorney. See 2022 Show Cause Order, Exhibit C.

Many of the same USPTO.gov accounts that were used to perpetrate the scheme outlined in the 2022 Show Cause Order were also among the accounts later used by Respondents to sign submissions and improperly enter the signatures of attorneys or owners and to effectuate attorney representation changes. For example, in a message to the USPTO and in his proceedings before OED, Mr. Song admitted that he did not personally sign at least 700 submissions, including initial applications and responses to Office actions, filed via TEAS in November and December 2020. See Exhibit E. USPTO evidence demonstrates that these submissions are connected to Respondents' accounts and filing patterns, some of which were previously identified in Exhibit D in the 2022 Show Cause Order.¹⁴

In February 2021, Respondents filed nearly 2,500 TEAS CAR forms using a common set of USPTO.gov accounts previously used by Respondents to prosecute applications, electronically sign the names of Ms. Li, Ms. Hao, and/or Ms. Yang and enter their bar credentials. See Exhibit F. On February 3, 2021 alone, Respondents submitted 298 CAR

¹³ To aid in their prosecution of trademark applications before the USPTO, Respondents used many of the same computer networks, correspondence addresses, docketing labels, financial information, and USPTO.gov accounts to file various submissions in connection with trademark applications and registrations for seemingly unrelated applicants and their "appointed" attorneys.

¹⁴ The public may view and print images of the contents of trademark application and registration records through the Trademark Status and Document Retrieval (TSDR) database on the USPTO website at <http://tsdr.uspto.gov/>.

forms, many of which were filed a minute or less apart, allegedly directly signed by hundreds of different individuals, but all originating from the same computer networks and all appointing the same sets of attorneys across applications owned by different applicants. See Exhibit G. Considering the rapid filing patterns and the purported geographical diversity of several of these applicants, this evidence indicates that Respondents, and not the named signatories, entered these signatures and likely shared access to USPTO.gov accounts among several individuals to file submissions directly with the USPTO.

While much of the conduct described in the 2022 Show Cause Order occurred primarily in 2020 and 2021, available evidence suggests Respondents continued to misrepresent their identities in communications with the USPTO well into 2022. For instance, on August 18, 2022, Respondents' agent or employee 郭新蕊 (Xinri Guo), using the email address guoxinrui@sellergrowth.com, contacted the Office about "my trademark," U.S. Application Serial No. 90881369, after it was withdrawn from scheduled publication. See Exhibit H. However, at the time of the inquiry, the application record identified the owner as an individual named Jiabin Lin represented by attorney [REDACTED]. Ms. Guo does not appear to be connected in any way to either the applicant Jiabin Lin or the attorney [REDACTED]. This application record also includes a TEAS Withdrawal of Attorney form wherein the attorney recognized prior to [REDACTED]'s appearance indicated that he had "reason to believe that unauthorized practice of law has taken place in connection with this application." *Id.* The totality of this evidence suggests that Respondents continued taking steps to disguise their involvement in improperly prosecuting trademark applications before the USPTO.

On May 6, 2021, in a significant subset of applications where Respondents previously misused Ms. Yang's bar credentials and falsely affixed her signature to the submissions, a newly appointed attorney suddenly filed 514 TEAS Withdrawal of Attorney forms for hundreds of different applicants, noting that he was doing so because of "suspicious of irregularities and non-payment" and redirected these applications to correspondence addresses including TM@sellergrowth.com and Vincent7553@hotmail.com, which are email addresses used by Respondents in various submissions. See Exhibit I. Although this attorney did not specify the irregularities, a similar pattern emerged a few months later involving attorney, [REDACTED], who likewise noted problems with filings emanating from some of the same USPTO.gov accounts.

From December 2021 to March 2022 the USPTO received at least 976 TEAS Withdrawal of Attorney forms wherein [REDACTED] stated, "I must withdraw pursuant to 37 CFR [Section] 11.116(a)(1). I have reason to believe that unauthorized practice of law has taken place in connection with this application."¹⁵ See Exhibit J. Each of these applications included correspondence information believed to be used by Respondents for docketing and direct prosecution of trademark applications before the USPTO, as described in Respondents' solicitation message sent to U.S.-licensed attorneys as well

¹⁵ 37 CFR §11.116(a)(1) provides that a practitioner shall not represent a client, or where representation has commenced, shall withdraw from the representation of a client if the representation will result in violation of the USPTO Rules of Professional Conduct or other law.

as contractual arrangements with Ms. Li and Ms. Yang, noted in Respondents' response. See 2022 Show Cause Order, Exhibit D.

Following the withdrawal of [REDACTED], on February 8 and 9, 2022, Respondents submitted over 500 CAR forms in applications where [REDACTED] was previously listed as attorney of record. In their submissions, Respondents appointed new U.S.-licensed attorneys and directly signed the signatures of trademark attorneys or trademark owners in over 500 TEAS forms, all within seconds of each other. See Exhibit K. To do so, Respondents used the same USPTO.gov accounts and/or computer networks that were previously used to falsely enter the signatures and bar credentials of other attorneys. Moreover, these CAR forms were submitted in a volume and frequency from USPTO.gov accounts used by Respondents that led the USPTO to determine that the submissions were improperly executed and thus the changes were not entered. *Id.* (February 22, 2022 Outgoing e-mail Notices).

Filings originating from Respondents' USPTO.gov accounts also reveal discrepancies that further illustrate their involvement in the prosecution of trademark applications before the USPTO. For example, U.S. Application Serial No. 97177692 was purportedly filed by attorney [REDACTED] on December 17, 2021. While [REDACTED]'s alleged electronic signature, bar admission year, bar number, and [REDACTED] mailing address appear in the application, the attorney name entered was [REDACTED]. See Exhibit L. [REDACTED] does not appear to have worked for [REDACTED] or [REDACTED] at any time, and suggests a third party entered [REDACTED]'s signature and bar credentials instead of [REDACTED]'s. See Exhibits M and N. A similar discrepancy also occurred in U.S. Application Serial No. 90411858, where the appointed attorney of record was listed as [REDACTED], features the alleged directly entered electronic signature of [REDACTED], but the signatory was identified as attorney [REDACTED]. See Exhibit O. Again, [REDACTED] does not appear to have worked for or with [REDACTED], or vice versa. Exhibits P and Q. Based on available information, Respondents are believed to have misused the attorneys' bar information and falsely entered third-party signatures in submissions.

Respondents also improperly entered the signatures of applicants in CAR forms in which they revoked previous powers of attorney and appointed new attorneys without the applicant's knowledge. For example, on August 31, 2022 an applicant, Zhiqing Wang, contacted the USPTO to state that their signature had been falsely entered on a handwritten signature page attached to a CAR form submitted on August 28, 2022, which appointed [REDACTED] as the new attorney of record. See Exhibit R. Applicant's message conveyed that they had contracted with Respondents to obtain a trademark registration in the United States, and were unaware of [REDACTED]'s appointment or involvement in prosecuting this trademark application.

Additional CAR forms appointing [REDACTED] and containing handwritten signature pages, allegedly bearing the applicants' respective signatures, were submitted around the last week of August 2022. Each displayed strikingly similar handwriting and originated from USPTO.gov accounts associated with Respondents and/or the attorneys with whom

Respondents contracted. See Exhibit S. Cumulatively, the evidence demonstrates that Respondents routinely provided false information to the USPTO in the form of both signatory names and signatures to disguise Respondents' continued involvement in prosecuting trademark applications.

Respondents' purposeful submission of documents that include false signatory information violates 37 C.F.R. § 11.18(b)(1). Moreover, doing so with intent to circumvent the USPTO's Rules violates 37 C.F.R. § 11.18(b)(2).

C. Respondents repeatedly violated the Terms of Use when they accessed USPTO systems to prosecute trademark applications.

The 2022 Show Cause Order explains how Respondents shared multiple USPTO.gov accounts and misrepresented their identities by entering the names of several U.S.-licensed attorneys in the signatory fields of TEAS forms. The conduct reveals repeated violations of the Terms of Use because Respondents accessed USPTO systems with the intent to provide false information in submissions they were not authorized to submit on behalf of the trademark owner or attorneys, in circumvention of USPTO Rules. Moreover, as detailed in the 2022 Show Cause Order, Respondents' improper account sharing is a breach of the Terms of Use because each account is only for use by the individual person to whom the account is registered. Use of a USPTO.gov account beyond one's authority to submit, access, or alter information is a breach of both these terms and 37 C.F.R. §§ 2.193 and 11.18(b).

Filing information available to the USPTO reveals additional violations of the Terms of Use. A review of submissions originating from USPTO.gov accounts used by Respondents that misappropriated Ms. Yang and Ms. Li's bar credentials also used the same computer networks to make a significant number of submissions from USPTO.gov accounts registered to attorneys [REDACTED] and [REDACTED]. Notably, neither [REDACTED] nor [REDACTED] practice in the same firm or maintain offices in the same location. Thus, it is highly improbable that these individuals personally submitted documents from the same computer networks. Exhibits Q, T, and U.

As described above, USPTO.gov accounts used or controlled by Respondents were also responsible for TEAS submissions filed at a frequency that would make it impossible for a single person to have completed the forms, especially with the number of direct signatures purportedly entered by various owners or principals. On February 9, 2022, one of the USPTO.gov accounts associated with Respondents was responsible for filing 256 separate CAR forms, most submitted within seconds or minutes of each other, with each submission allegedly directly signed by the owner or principal and from the same computer networks. See Exhibit K. On this day alone, there were a total of 499 submissions, all allegedly directly signed, made within seconds of each other through the same computer network and using a set of five USPTO.gov accounts believed to be operated by Respondents but signed using different individuals' names.

Additionally, between February 14, 2022, and March 14, 2022, the USPTO detected several anomalous TEAS form filing patterns consistent with account-sharing behavior in submissions originating from the USPTO.gov account registered to [REDACTED]. This account was responsible for filing nearly one thousand TEAS forms during the relevant period, including several submissions filed at the exact same time from different computer networks, including networks previously used by Respondents to enter over 230 different individuals' signatures. See Exhibit V.

More than half of the 803 TEAS forms submitted from [REDACTED]'s USPTO.gov account during the relevant period contained the attorney's alleged directly entered electronic signature and originated from computer networks in the United States. However, the remaining 374 submissions made during this period were signed using the TEAS "E-Signature" option.¹⁶ Of those submissions, 278 CAR forms were allegedly signed by various "owners," "presidents," or "principals" of the identified applicants, but originated from the same computer network as the submissions and in a rapid succession. See e.g. Exhibits V and W. It is implausible that dozens of different individuals were present to electronically sign these forms in-person on the same day in the same location. This evidence therefore suggests that Respondents used the E-Signature option to improperly enter signatures by persons other than the signatory in violation of 37 C.F.R. § 2.193(a), all to deceive the USPTO.

Evidence also shows that some filings, despite originating from the same USPTO.gov account, were filed on a computer in the United States at nearly the same time as others from a computer in China. See Exhibit V. The USPTO received 32 CAR form submissions from [REDACTED]'s USPTO.gov account on March 7, 2022 between 2:26 pm and 2:57 pm (EST) originating from China, and then 18 additional TEAS form submissions between 3:12 pm and 5:19 pm, on the same day, originating from the central United States. Filing records also reveal that 30 out of the 32 submissions were filed within minutes or even seconds of one another from the same computer network in China. This was the same network previously used by a USPTO.gov account to directly sign Ms. Yang's electronic signature in multiple submissions. See Exhibits V and W. The rapid filing patterns suggest multiple people, including Respondents, were using [REDACTED]'s account, as submissions from one location seemed to cease just minutes before submissions from the other location began.

The evidence thus indicates Respondents shared access across multiple USPTO.gov accounts, which they then used to improperly enter the electronic signatures of various U.S.-licensed attorneys and alleged applicants in violation of 37 C.F.R. §§ 2.193(a) and 11.18, and submitted these "signed" trademark documents to the USPTO with the intent that the USPTO examine them. Based on the volume of submissions and speed at which they were submitted from the USPTO.gov accounts used by Respondents, the only reasonable conclusion is that Respondents are engaging in a pattern of willfully

¹⁶ The "E-signature" option, permits a registered USPTO.gov account user to generate a link within the form to send to a second party to directly enter his or her personal signature. Once the signature has been personally entered by that individual, the original registered USPTO.gov account user completes the submission of the TEAS form.

misrepresenting their identities and sharing access to these USPTO.gov accounts across multiple users in violation of the Terms of Use.

D. Respondents submitted thousands of applications with false specimens of use.

In a trademark or service mark application based on use in commerce under section 1(a) of the Trademark Act, the mark must be in use in commerce on or in connection with all the goods and services listed in the application as of the application filing date. See 15 U.S.C. § 1051(a); 37 C.F.R. §§ 2.2(k)(1), 2.34(a)(1)(i). “Use in commerce means the bona fide use of a mark in the ordinary course of trade, and not made merely to reserve a right in a mark.” 15 U.S.C. § 1127. The Trademark Act and USPTO Rules require an applicant to make a verified statement that the mark is in use in commerce and demonstrate use in commerce through the submission of specimens showing the mark as it is actually used on or in connection with the identified goods or services. 15 U.S.C. § 1051(a)(1); 37 C.F.R. §§ 2.34(a)(1)(iv), 2.56(a)–(b). Averments regarding use in commerce are material to the issuance of a trademark registration and subject to the certifications under 37 C.F.R. § 11.18.

A review of a representative sample of specimens submitted by Respondents reveals a practice of submitting images that do not demonstrate actual use in commerce as defined by the Trademark Act and USPTO Rules. Respondents routinely submitted mocked-up images of marks on or in connection with goods or services identified in applications for the purpose of satisfying the specimen requirement. These images did not depict applicant’s actual goods or services or how consumers would encounter the applied-for marks in the marketplace. The attached exhibit shows at least 2,500 different trademark applications where Respondents provided digitally altered or mocked-up specimens and were accordingly refused registration for that reason. See Exhibit X. Several of the mocked-up specimens were included in applications directly filed by Respondents, based on the available evidence. These applications included email addresses believed to be controlled by Respondents or other email addresses associated with Respondents such as elisa@yanglawoffices.com and dililawipsg@gmail.com, as described in the 2022 Show Cause Order. The false specimen submissions further demonstrate Respondents’ consistent practice of intentionally circumventing USPTO Rules.

In addition, multiple attorneys such as Ms. Li, Ms. Yang, Ms. Hao, and Mr. Zhang admitted that they had not reviewed or sufficiently reviewed all submissions filed in connection with their names or signatures, which further supports a finding that neither they nor Respondents made a reasonable inquiry into whether the use claims were accurate or had evidentiary support, in violation of 37 C.F.R. § 11.18(b)(2). The specimens have such obvious markers of being mocked up that any reasonable inquiry would have raised questions about whether they demonstrated actual use of the mark in commerce and should have resulted in them not being submitted to the USPTO. The nature of these specimens indicates that they are invalid and that the averments as to use of the mark for the goods or services identified in the applications are inaccurate.

IV. Show Cause Requirement

The Director has authority to sanction those filing trademark submissions in violation of the USPTO Rules and has delegated to the Commissioner for Trademarks the authority to impose such sanctions and to otherwise exercise the Director's authority in trademark matters. 35 U.S.C. § 3(a)-(b); 37 C.F.R. § 11.18(c); see also *Zhang*, 2021 TTAB LEXIS 465, at *10, *23-24. The authority to issue administrative sanctions has been further delegated to the Deputy Commissioner for Trademark Examination Policy.

In determining appropriate sanctions, various considerations may be taken into account, including what is needed to deter the conduct by the party and by others and whether: the improper conduct was willful, the conduct was part of a pattern of activity or an isolated event, the conduct infected an entire application or one particular submission, the party has engaged in similar conduct in other matters, the conduct was intended to injure, or the effect of the conduct on the administrative process in time and expense. 73 Fed. Reg. 47650, 47653 (2008).

Based on the foregoing information and totality of evidence, the USPTO has reason to find that serious sanctions are warranted. The evidence establishes that Respondents have knowingly engaged not only in the unauthorized practice of law but also in a widespread and coordinated pattern of activity intended to conceal their involvement in trademark matters and circumvent USPTO Rules. As discussed above, the evidence indicates that all initial application forms and other trademark submissions made through USPTO.gov accounts registered to or used by Respondents were filed in violation of multiple USPTO Rules. These submissions contained fatal defects such as improper signatures or false representations of material fact, including use claims supported by fake specimens. The evidence further shows that Respondents continually and consistently misrepresented the identities of signatories in connection with declarations and affidavits supporting applications to register marks, entered false electronic signatures of purported applicants, submitted fake specimens of use, and actively solicited the cooperation of multiple U.S.-licensed attorneys to further their scheme and improperly entered the attorneys' names, credentials and electronic signatures. Respondents also misused USPTO.gov accounts and the TEAS E-Signature option to conceal their misconduct by emailing signature pages to themselves to give the false impression that the signature page was being sent to the named applicant or registrant. Instead Respondents were simply sending the signature pages to themselves so that they could improperly enter the electronic signature of the named signatory.

The available evidence and information support finding that all these actions were undertaken for an improper purpose in violation of 37 C.F.R. § 11.18(b)(2) and involved fraud on the USPTO. Respondents' intended to deceive the USPTO into believing the submissions were proper. Respondents' conduct impaired the USPTO's ability to perform its statutorily-mandated duty of registering marks that comply with U.S. trademark law, including USPTO Rules. Respondents' conduct has infected thousands of applications,

resulted in false and fraudulent submissions being made to the USPTO that in most if not all cases would render the applications void ab initio, and adversely affected the integrity of the federal trademark registration process.

Accordingly, **Respondents are hereby ordered to respond to show cause why the USPTO should not:**

- (1) Permanently preclude Respondents from submitting trademark-related documents on behalf of Respondents or others;
- (2) Strike or otherwise give no weight to all trademark-related documents submitted by Respondents;
- (3) Remove correspondence information associated with Respondents from the USPTO's database in all applications and/or registrations;
- (4) Deactivate any USPTO accounts in which contact information related to Respondents appears, and take action to prevent Respondents from creating or activating further accounts;
- (5) Block future financial transactions from credit cards used to pay filing fees associated with the improper submissions and/or associated with Respondents;
- (6) Terminate all ongoing proceedings containing submissions filed by Respondents;
- (7) For trademark proceedings later found to involve Respondents or containing submissions filed by Respondents, continue to strike documents, remove information, deactivate accounts, block financial transactions, and terminate proceedings;
- (8) For marks that have already registered, if a final order for sanctions includes findings that the underlying applications are void ab initio and any resulting registrations invalid, or that otherwise affect the underlying validity of the applications or registrations, (i) not allow post-registration submissions to be filed electronically and/or (ii) refuse to accept or acknowledge post-registration submissions, or otherwise give them no weight.

The response is due by 5:00pm (Eastern Time) on December 11, 2023 and must be sent via email to TMPolicy@uspto.gov. If Respondents require more time to respond, a request for an extension of time to respond should be submitted by the deadline.

Additionally, all questions or communications with the USPTO related to this Show Cause Order must be submitted in writing, addressed to the Office of the Deputy

Commissioner for Trademark Examination Policy and must be sent to TMPolicy@uspto.gov.

The response must include documentary evidence and detailed explanations that would rebut the USPTO's preliminary determination that sanctions are warranted. Any response or electronic communications submitted to the USPTO will be considered part of the public record and are not exempt from disclosure. Considering the widespread and apparently continuing harm being caused to affected applicants, the USPTO may take immediate mitigation actions, including suspending further action in impacted applications and/or restricting access to USPTO.gov accounts associated with Respondents.¹⁷

This order is issued without prejudice to the USPTO taking all other appropriate actions to protect its systems and users from Respondents' continued improper activity, including issuing additional orders relating to other applications, or referring Respondents' conduct to relevant state and federal law enforcement agencies.

So ordered,

Amy P. Cotton
Deputy Commissioner for Trademark Examination Policy
United States Patent & Trademark Office

Exhibit C

**UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE DIRECTOR OF THE
UNITED STATES PATENT AND TRADEMARK OFFICE**

In the Matter of)	
)	
Weibo Zhang,)	Proceeding No. D2022-16
)	
Respondent)	
_____)	

FINAL ORDER

The Director of the Office of Enrollment and Discipline (“OED Director”) for the United States Patent and Trademark Office (“USPTO” or “Office”) and Weibo Zhang (“Respondent”) have submitted a Proposed Settlement Agreement (“Agreement”) to the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (“USPTO Director”) for approval. The Agreement, which resolves all disciplinary action by the USPTO arising from the stipulated facts set forth below, is hereby approved. This Final Order sets forth the parties’ stipulated facts, legal conclusion, and sanctions.

Jurisdiction

1. At all times relevant, Respondent of Flushing, New York, has been an attorney engaged in practice before the USPTO in trademark matters and subject to the USPTO Rules of Professional Conduct, which are set forth at 37 C.F.R. §§ 11.101 through 11.901.
2. The USPTO Director has jurisdiction over this matter pursuant to 35 U.S.C. §§ 2(b)(2)(D) and 32, and 37 C.F.R. §§ 11.19, 11.20, and 11.26.

Joint Stipulated Facts

3. On March 13, 2019, Respondent was admitted to practice law in the State of New York.
4. Effective August 3, 2019, the USPTO amended its rules of practice to require that trademark applicants not domiciled within the United States be represented by an attorney who is licensed to practice law in a jurisdiction of the United States (also known as the “U.S. Counsel Rule”).
5. Respondent learned of the U.S. Counsel Rule at the time it was adopted in August 2019.
6. In 2020, a number of trademark agents (“Agents”) hired Respondent to serve as the U.S.-licensed attorney of record on applications that the Agents prepared on behalf of

foreign-domiciled trademark applicants with the intention of filing those applications with the Office.

7. Respondent represents that the Agents included Lin Zhang, Xing Don, Jing Liu, Jiaqi Wang, Linzhi Xiang, Ju Xiao Yan, Si Li, Xinguang Zhang, Lang Wan, Xinyi International IP, Shenzhen Yaotianxia IP, Shenzhen Ruilixin IP, Shenzhen Sellergrowth Network, Beijing Haoke International Intellectual Agent, Shenzhen Kuazintong Consulting Service, Mingri Intellectual Property Shenzhen Co., and Shenzhen Kuashiji Intellectual Property Co.

8. The Agents were not licensed to practice law in the United States.

9. At all relevant times, the foreign-domiciled trademark applicants were Respondent's clients.

10. The Agents paid Respondent between \$40 and \$60 per application for representing the foreign-domiciled trademark applicants before the USPTO.

11. Generally, the Agents prepared the applications using the Trademark Electronic Application System ("TEAS"), the USPTO's trademark filing and prosecution system.

12. After preparing the applications on TEAS, the Agents generally sent the applications to Respondent electronically to review, sign, and file.

13. A large portion of the applications reviewed, signed, and filed by Respondent were based on use in commerce under 15 U.S.C. § 1051(a).

14. Pursuant to 37 C.F.R. § 11.18, Respondent was required to review sufficiently his clients' applications in order to certify that he believed all statements made therein to be true.

15. Respondent was named attorney of record for approximately 8,500 applications filed in 2020 and 9,800 applications filed in 2021. Respondent reviewed, signed, and filed over 3,000 applications in December 2020, including over 350 applications in a single day: December 31, 2020.

16. Due to the volume of applications he filed, Respondent did not always conduct a sufficiently thorough review of trademark applications prior to filing, including, for example, not performing an inquiry reasonable under the circumstances to determine whether the specimens showed the marks as used in commerce or failing to review specimens to determine that they were authentic (e.g., not mockups or digitally altered). At all relevant times, Respondent understood that the USPTO would rely on documents that he signed and filed when the USPTO examined applications and issued registrations.

17. Additionally, Respondent acknowledged that he allowed an Agent to sign his name to 49 trademark applications and appurtenant declarations and to file those applications with the USPTO without his reviewing the applications prior to filing. The applications were filed with the USPTO on a single day.

18. Respondent acknowledged that he knew that the 49 applications were impermissibly signed at the time they were filed, but he did not inform the trademark applicants of the impermissible signing until over a year later.

19. Respondent did not inform anyone at the USPTO of the impermissible signing of the 49 applications until asked about the applications by OED during the course of its investigation of Respondent.

20. Regarding Office Actions issued in trademark applications where Respondent was the attorney of record, Respondent established a system whereby the relevant Agent received Office Actions via email directly from the USPTO. Respondent then relied on the Agents to communicate with applicants about the Office Actions. Respondent did not take sufficient steps to confirm that the Agents received the emails or that the Agents informed the applicants about the Office Actions. Respondent did not take action on behalf of applicants with respect to Office Actions unless he received a draft response from an Agent. Respondent interpreted silence from an Agent with respect to an Office Action as the applicant's intention not to respond.

Additional Considerations

21. Respondent has never been the subject of professional discipline by the USPTO, and Respondent represents that he has never been the subject of any discipline by any court or any state bar.

22. Respondent cooperated with OED's investigation.

23. Respondent represents that he is willing to take any corrective action in the future to fully comply with the professional responsibilities set forth in the USPTO Rules of Professional Conduct.

24. Respondent represents that he is willing to cooperate fully with the USPTO in any present or future USPTO inquiry made into improper filings of trademark documents filed with the USPTO by trademark entities with whom Respondent works or has worked.

Legal Conclusions

25. Respondent acknowledges that, based on the information contained in the joint stipulated facts above, he violated the following provisions of the USPTO Rules of Professional Conduct:

- a. failing to provide competent representation to clients by, *inter alia*:
 - (i) accepting a volume of clients so large that he could not always conduct a sufficient review of his clients' trademark filings prior to filing with the USPTO; (ii) not reviewing applications that Agents signed and filed wherein Respondent served as attorney of record; and (iii) failing to put proper procedures in place to ensure compliance with USPTO regulations, in violation of 37 C.F.R. § 11.101;

- b. failing to act with reasonable diligence and promptness by, *inter alia*:
 - (i) not always conducting a sufficiently thorough review of trademark applications prior to filing with the USPTO; (ii) failing to put procedures in place to ensure his clients' filings were in compliance with the USPTO regulations; (iii) failing to put procedures in place to ensure adequate communication of USPTO-issued correspondence with clients; (iv) failing to adequately review trademark applications on which he was identified as the attorney of record (e.g., failing to properly review applications Agents filed and specimens to confirm the mark showed actual use in commerce); and (v) failing to review, prior to filing, 49 trademark applications for which he was named attorney of record, in violation of 37 C.F.R. § 11.103;
- c. failing to reasonably consult with the client about the means by which the client's objectives are to be accomplished by, *inter alia*, failing to ensure that applicant decisions regarding important USPTO-issued correspondence were communicated to Respondent by Agents, in violation of 37 C.F.R. § 11.104(a)(2);
- d. failing to keep clients reasonably informed about the status of a matter by, *inter alia*, failing to ensure through adequate communication that applicants received important USPTO-issued correspondence, in violation of 37 C.F.R. § 11.104(a)(3);
- e. failing to explain matters to the extent reasonably necessary to permit clients to make informed decisions regarding the representation by, *inter alia*, not timely informing clients that Respondent knowingly allowed applications to be signed in violation of USPTO signature rules and not timely informing clients of the potential adverse consequences to their respective intellectual property rights due to the impermissible signings, in violation of 37 C.F.R. § 11.104(b);

the practitioner by, *inter alia*: (i) allowing non-practitioners to prepare and file trademark documents with the USPTO on behalf of Respondent's clients without properly reviewing and vetting such documents; (ii) failing to ensure adequate communication of USPTO-issued correspondence with clients and that client decisions regarding said documents were communicated to Respondent; and (iii) authorizing non-practitioners to enter Respondent's signature on 49 trademark applications (including declarations) filed with the USPTO, in violation of 37 C.F.R. § 11.503(a);

- j. engaging in conduct that is prejudicial to the administration of justice by, *inter alia*: (i) failing to review specimens to determine that they were authentic (e.g., not mockups or digitally altered); (ii) failing to comply with 37 C.F.R. § 11.18 by not conducting a reasonable inquiry under the circumstances prior to presenting trademark documents to the USPTO on behalf of Respondent's clients with the knowledge that the USPTO would rely on such documents in examining the applications and issuing registrations; and (iii) authorizing non-practitioners to enter Respondent's signature on 49 trademark applications (including declarations) filed with the USPTO, in violation of 37 C.F.R. § 11.804(d).

Notice of Suspension and Probation

This notice concerns Weibo Zhang of Flushing, New York, an attorney licensed in the state of New York. The United States Patent and Trademark Office ("USPTO") has suspended Mr. Zhang from practice before the USPTO for ninety (90) days. Mr. Zhang will also serve a probationary period.

In 2020, Respondent began serving as attorney of record for a large volume of foreign-domiciled trademark applicants pursuant to the agency's U.S. Counsel Rule (*see* Requirement of U.S. Licensed Attorney for Foreign Trademark Applicants and Registrants, 84 Fed. Reg. 31498 (July 2, 2019)). Respondent served as attorney of record on thousands of trademark applications. Respondent received already-prepared trademark applications from foreign-domiciled companies and firms and did not conduct an adequate review of such applications before signing them and authorizing their filing with the USPTO. He signed declarations under 18 U.S.C. § 1001 attesting that his clients' specimens showed the marks as used in commerce without conducting an inquiry reasonable under the circumstances. He also authorized non-practitioners to sign his name on 49 trademark applications without conducting any review of the applications himself. Finally, he failed to communicate with applicant clients about Office Actions issued by the USPTO with respect to their applications.

As a result of the above misconduct, Mr. Zhang violated the following provisions of the USPTO Rules of Professional Conduct: 37 C.F.R. §§ 11.101 (practitioner shall provide competent representation to a client), 11.103 (practitioner shall act with reasonable diligence and promptness in representing a client), 11.104(a)(2) (practitioner shall reasonably consult

with the client about the means by which the client's objectives are to be accomplished), 11.104(a)(3) (practitioner shall keep clients reasonably informed about the status of a matter), 11.104(b) (practitioner shall explain matters to the extent reasonably necessary to permit clients to make informed decisions regarding the representation), 11.303(a)(1) (practitioner shall not knowingly make a false statement of fact to a tribunal or fail to correct a false statement of material fact made to the tribunal by the practitioner), 11.503(a) (practitioner shall take reasonable efforts to ensure that non-practitioners' conduct is compatible with the professional obligations of the practitioner), 11.505 (practitioner shall not assist another in practicing law in a jurisdiction in violation of the regulation of the legal profession in that jurisdiction), 11.804(c) (practitioner shall not engage in conduct involving dishonesty), and 11.804(d) (practitioner shall not engage in conduct that is prejudicial to the administration of justice).

Mr. Zhang cooperated with the OED investigation and has agreed to cooperate with the USPTO's efforts to combat improper filings of trademark documents.

This action is the result of a settlement agreement between Mr. Zhang and the OED Director pursuant to the provisions of 35 U.S.C. §§ 2(b)(2)(D) and 32 and 37 C.F.R. §§ 11.19, 11.20, and 11.26. Disciplinary decisions involving practitioners are posted for public reading at the OED Reading Room, available at: <http://foiadocuments.uspto.gov>;

- cc. Respondent, by his agreement, has waived all rights to seek reconsideration of the Final Order under 37 C.F.R. § 11.56, waived the right to have the Final Order reviewed under 37 C.F.R. § 11.57, and waived the right otherwise to appeal or challenge the Final Order in any manner;
- dd. Within a reasonable period after the entry of a Final Order, the OED Director shall file a motion dismissing the pending disciplinary action without prejudice; and
- ee. The OED Director and Respondent shall each bear their own costs incurred to date in carrying out the terms of the Agreement and the Final Order.

FINAL ORDER

The Director of the Office of Enrollment and Discipline (“OED Director”) for the United States Patent and Trademark Office (“USPTO” or “Office”) and Jingfeng Song (“Respondent”) have submitted a Proposed Settlement Agreement (“Agreement”) to the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (“USPTO Director”) for approval.

The Agreement, which resolves all disciplinary action by the USPTO arising from the stipulated facts set forth below, is hereby approved. This Final Order sets forth the parties’ stipulated facts, legal conclusions, and sanctions.

Jurisdiction

1. At all times relevant hereto, Respondent of Barrington, Illinois, has been a registered patent attorney (Registration No. 67,105) and an attorney in good standing in the State of Illinois who has engaged in practice before the Office in trademark and patent matters. Therefore, Respondent is subject to the USPTO Rules of Professional Conduct, which are set forth at 37 C.F.R. §§ 11.101 through 11.901.

2. The USPTO Director has jurisdiction over this matter pursuant to 35 U.S.C. §§ 2(b)(2)(D) and 32, and 37 C.F.R. §§ 11.19, 11.20, and 11.26.

Joint Stipulated Facts

A. U.S. Counsel Rule for Trademark Matters

3. The USPTO published a final rule (“U.S. Counsel Rule”) requiring applicants, registrants, or parties to a trademark proceeding whose domicile is not located within the U.S. or its territories to be represented by an attorney who is an active member in good standing of the bar of the highest court of a state in the U.S. *See Requirement of U.S. Licensed Attorney for Foreign Trademark Applicants and Registrants*, 84 FR 31498 (July 2, 2019).

4. The U.S. Counsel Rule became effective on August 3, 2019. *See id.*; 37 C.F.R. § 2.11(a).

5. In the few years preceding the U.S. Counsel Rule’s effective date, the USPTO had seen many instances of unauthorized practice of law (“UPL”) where foreign parties who are not authorized to represent trademark applicants were improperly representing foreign applicants before the USPTO. As a result, increasing numbers of foreign applicants were likely receiving inaccurate or no information about the legal requirements for trademark registration in the U.S., such as the standards for use of a mark in commerce, who can properly aver to matters and sign for the mark owner, or even who the true owner of a mark is under U.S. law. This practice raised legitimate concerns that affected applications and any resulting registrations are potentially invalid, and thus negatively impacting the integrity of the trademark register. Hence, the USPTO implemented the requirement for representation by a qualified U.S. attorney in response to the increasing problem of foreign trademark applicants who purportedly are *pro se* (*i.e.*, one who does not retain a lawyer and appears for himself or herself) and who are filing inaccurate and possibly fraudulent submissions that violate the Trademark Act and/or the USPTO’s rules. For example, such foreign applicants filed applications claiming use of a mark in commerce, but

frequently support the use claim with mocked-up or digitally altered specimens that indicate the mark may not actually be in use. Many appear to be doing so on the advice, or with the assistance, of foreign individuals and entities who are not authorized to represent trademark applicants before the USPTO. This practice undermines the accuracy and integrity of the U.S. trademark register and its utility as a means for the public to reliably determine whether a chosen mark is available for use or registration, and places a significant burden on the trademark examining operation. *See* 84 FR at 31498-31499.

6. U.S. attorneys are required to provide their bar information to the USPTO when representing applicants and registrants, whether domiciled inside or outside the U.S.

See 37 C.F.R. §§ 2.17(b)(3), 2.32(a)(4).

B. USPTO Signature Rules for Trademark Matters

7. The USPTO trademark signature rules require that all signatures be personally entered by the named signatory and that a person electronically signing a document must personally enter any combination of letters, numbers, spaces, and/or punctuation marks that he or she has adopted as a signature, placed between two forward slash (“/”) symbols in the signature block on the electronic submission. *See* 37 C.F.R. §§ 2.193(a) and (c), and 37 C.F.R. § 11.18(a).

8. At all relevant times, the following unequivocal published guidance from the USPTO identified the proscription against any person other than the named signatory signing electronically trademark documents filed with the USPTO:

All documents must be personally signed. 37 C.F.R. §§ 2.193(a)(1), (c)(1), 11.18(a). The person(s) identified as the signatory must manually enter the elements of the electronic signature. Another person (e.g., paralegal, legal assistant, or secretary) may not sign the name of a qualified practitioner or other authorized signatory. *See In re Dermahose Inc.*, 82 USPQ2d 1793 (TTAB 2007); *In re Cowan*, 18 USPQ2d 1407 (Comm’r Pats. 1990). Just as signing the name of another person on paper does not serve as the signature of the person whose name is written, typing

the electronic signature of another person is not a valid signature by that person.

Trademark Manual of Examining Procedure § 611.01(c).

9. Trademark applications contain declarations that are signed under penalty of perjury, with false statements being subject to punishment under 18 U.S.C. § 1001. Signatories to declarations in trademark applications make specific representations regarding applicants' use of the mark in commerce and/or their intent to use the mark in commerce. The USPTO relies on such declarations signed under penalty of perjury in trademark applications in the course of examining trademark applications and issuing registrations.

C. The Trademark Applicant is the Practitioner's Client

10. A practitioner has an ethical obligation under the USPTO Rules of Professional Conduct to know who is the client. *See* 37 C.F.R. § 11.101 (concerning competency). "The PTO expects practitioners to know the identities of their clients and to take reasonable steps to avoid foreseeable prejudice to the rights of their clients." *See Responsibilities of Practitioners Representing Clients in Proceedings Before The Patent and Trademark Office*, 1421 CNOG 2690 (December 29, 2015) (citing 50 Federal Register 5164 (Feb. 6, 1985) and 1086 Trademark Official Gazette 357 (Jan. 5, 1988)).

11. Where a trademark practitioner works with a foreign intermediary, the client is the trademark applicant. *See Responsibilities of Practitioners Representing Clients in Proceedings Before The Patent and Trademark Office*, 1091 OG 26 (May 25, 1988); *see also Strojirenstvi v. Toyota*, 2 USPQ2d 1222 (Comm'r Pat. 1986) (explaining, in part, that a U.S. practitioner who receives instructions from a trademark owner through a foreign agent does not change the fact that the client is still the trademark owner rather than the foreign agent).

D. Respondent's Conduct

12. At all times relevant hereto, Respondent has been a registered patent attorney and a U.S. attorney in good standing in the State of Illinois.

13. Since at least 2020, Respondent has been the sole practitioner at his company SciNova IP and Regulatory Consulting LLC ("SciNova IP"), which has also employed non-attorney assistants.

14. In November 2020, Respondent was contacted by individuals affiliated with a foreign company known as Shenzhen Seller Growth Network Technology Co., Ltd. ("Seller Growth") that provides services to foreign companies serving Amazon, eBay, and other online platforms. Seller Growth is headquartered in Shenzhen in the People's Republic of China ("PRC"), but it also has offices throughout the PRC.

15. Respondent represents that he did not have an adequate understanding of the U.S. Counsel rule when agreeing to represent foreign-domiciled trademark applicants before the USPTO.

16. In mid-November 2020, Seller Growth and Respondent agreed to collaborate for the filing of trademark applications, whereby Seller Growth would prepare the trademark applications for its foreign trademark applicants, and send the information to Respondent for his review, signature, payment, and submittal to the USPTO. For some applications, Respondent authorized staff at Seller Growth to enter his signature on trademark applications and the appurtenant declarations rather than signing them himself and submit the trademark applications to the USPTO.

17. Respondent represents that he authorized staff at Seller Growth to sign trademark applications and appurtenant declarations for about a one (1) month total time period around

December 2020.

18. Respondent represents that, during this period, he authorized Seller Growth to enter his signature on trademark applications and appurtenant declarations for approximately 700 applications.

19. Mr. Song further represents that: (a) since mid-December 2020, he changed his practice and has personally signed every trademark document filed with the USPTO where he is the named signatory; and (b) at no time, other than the time associated with the aforementioned 700 trademark applications, did anyone sign his name to a trademark document filed with the USPTO on which he was identified as the named signatory.

20. Respondent represents that, when he authorized Seller Growth to enter his signature, he incorrectly believed that the USPTO signature rules allowed him to do so provided he had reviewed the applications and directed the entry of his electronic signature. Respondent represents that he did not fully understand the guidance set forth in the Trademark Manual of Examining Procedure § 611.01(c) (concerning only the named signatory being the person who enters his or her electronic signature). Respondent represents that, at the time he authorized Seller Growth staff to sign his name on trademark applications, he was unaware of all of the USPTO signature methods permitted by the USPTO.

21. Respondent further represents that he first became aware of the USPTO signature rules only after receiving notice of OED's investigation of his activities.

22. Respondent represents that, after learning that he had violated the USPTO signature rules, he was candid with his clients regarding the impermissible signatures on their trademark applications and agreed to take corrective action at no charge to the client when authorized.

23. Respondent represents that he began taking corrective action regarding the approximately 700 impermissibly signed trademark applications once he was informed of OED's investigation. He represents that he contacted many of the affected clients to inform them about the impermissible signatures on their trademark applications and attendant declarations that do not comply with the USPTO trademark signature rules, and contacted the USPTO regarding filings that were made in violation of the USPTO signature requirements.

24. Respondent represents that he has arranged for a registered practitioner to represent his clients during the period of suspension.

Additional Considerations

25. Respondent has expressed contrition for his prior lack of understanding of the U.S. Counsel Rule and the USPTO trademark signature rules and how his acts and omissions implicated many provisions of the USPTO Rules of Professional Conduct.

26. Respondent has expressed his understanding of the seriousness of the violations of the USPTO Rules of Professional Conduct stipulated to herein, and he acknowledges the potential adverse impact on his clients' intellectual property rights from the trademark filings that were made in violation of the USPTO's trademark regulations.

27. Respondent represents that he has never been the subject of professional discipline by the USPTO, any court, or any state bar.

28. Respondent has been fully cooperative with OED's investigation, including providing candid responses to requests for information and engaging in multiple interviews with OED.

Joint Legal Conclusions

29. Respondent acknowledges that, based on the information contained in the joint

stipulated facts, above, Respondent's acts and omissions violated the following provisions of the USPTO Rules of Professional Conduct:

- a. 37 C.F.R. § 11.101 (practitioner shall provide competent representation) by, *inter alia*, not adequately knowing or understanding the U.S. Counsel Rule and the USPTO trademark signature rules, which resulted in violations of those rules in the course of representing trademark clients;
- b. 37 C.F.R. § 11.103 (practitioner shall act with reasonable diligence and promptness in representing a client) by, *inter alia*, failing to take reasonable steps to ensure that his clients' trademark filings were signed in accordance with the USPTO trademark rules and regulations;
- c. 37 C.F.R. § 11.104(a) and (b) (communications with client) by, *inter alia*, not informing some of his clients as to the actual or potential adverse consequences of his failure to comply with the U.S. Counsel Rule and the USPTO trademark rules and regulations, so that those clients could make informed decisions about their trademark applications and/or issued registrations;
- d. 37 C.F.R. § 11.804(c) (engaging in deceit, dishonesty, and misrepresentation) by, *inter alia*, authorizing Seller Growth staff to impermissibly sign his name to 700 trademark applications and appurtenant declarations, and file the applications with the Office, and
- e. 37 C.F.R. § 11.804(d) (conduct prejudicial to the integrity of the U.S. trademark registration system) by, *inter alia*, authorizing Seller Growth staff to impermissibly sign his name to 700 trademark applications and appurtenant declarations, and file the applications with the Office.

Agreed-Upon Sanction

30. Respondent freely and voluntarily agrees, and it is hereby ORDERED that:
 - a. Respondent is suspended from practice before the Office for a period of thirty (30) days commencing fourteen (14) days from the date of the Final Order;

Notice of Suspension and Probation

This notice concerns Mr. Jingfeng Song of Barrington, Illinois, who is registered to practice before the United States Patent and Trademark Office ("USPTO") in patent matters (Registration No. 67,105) and an attorney licensed in the state of Illinois. Mr. Song is hereby suspended from practice before the Office for a period of thirty (30) days and placed on probation for violating 37 C.F.R. §§ 11.101, 11.103, 11.104(a) and (b), 11.804(c), and 11.804(d).

These violations are predicated on Mr. Song's acts and omissions during the course of his business relationship with Shenzhen Seller

Growth Network Technology Co., Ltd. (“Seller Growth”). As explained below, Mr. Song agreed to act as the attorney of record on trademark applications filed with the USPTO on behalf of clients — foreign-domiciled trademark applicants— obtained via his association with Seller Growth, and allowed Seller Growth to enter his name on over 700 trademark applications in violation of the USPTO trademark signature rules.

In November 2020, Mr. Song entered into an agreement with Seller Growth, whereby Seller Growth would prepare trademark applications for its foreign trademark applicants, and send the information to Mr. Song for his review, signature, payment, and submittal to the USPTO. For approximately 700 applications, Respondent authorized staff at Seller Growth to enter his signature and submit the trademark applications rather than signing them himself. Therefore, Mr. Song did not comply with his ethical obligations to clients and the USPTO under the U.S. Counsel Rule.

Mr. Song recognizes his ethical lapses, demonstrated genuine contrition, and accepted responsibility for his conduct. Mr. Song has been fully cooperative with OED’s investigation, including providing candid responses to requests for information and engaging in interviews with OED.

This action is the result of a settlement agreement between Mr. Song and the OED Director pursuant to the provisions of 35 U.S.C. §§ 2(b)(2)(D) and 32, and 37 C.F.R. §§ 11.19, 11.20, and 11.26.

Disciplinary decisions involving practitioners are posted for public reading at the Office of Enrollment and Discipline Reading Room accessible at: <https://foiadocuments.uspto.gov/oed>;

- m. Nothing in the Final Order shall prevent the Office from considering the record of this disciplinary proceeding, including the Final Order: (1) when addressing any further complaint or evidence of the same or similar misconduct concerning Respondent brought to the attention of the Office; (2) in any future disciplinary proceeding against Respondent (i) as an aggravating factor to be taken into consideration in determining any discipline to be imposed, and/or (ii) to rebut any statement or representation by or on Respondent’s behalf;

Respondent’s Duties and Responsibilities Under 37 C.F.R. § 11.58

- n. Respondent shall have the following duties and responsibilities as a consequence of being disciplinarily suspended on ethical grounds:

 - (3) Respondent shall provide notice of his suspension to the practitioners for all opposing parties (or, to the parties in the absence of a practitioner representing the opposing parties) in matters pending before the Office as set forth in 37 C.F.R. § 11.58(c)(4);
 - (4) Respondent shall not hold himself out as authorized to practice before the Office in patent, trademark, or other non-patent matters until he is reinstated to practice before the Office; and
 - (5) Respondent shall not render legal advice or services to any person having immediate or prospective business before the Office as set forth in 37 C.F.R. § 11.58(b)(5) until he is reinstated to practice before the Office;

Respondent may satisfy his obligations under 37 C.F.R. § 11.58(c)(3)(i) for those clients who are domiciled in a foreign country and have immediate or prospective business before the Office in patent, trademark, or other non-patent matters (e.g., trademark applicants, parties before the USPTO Trademark Trial and Appeal Board, patent applicants, parties before the USPTO Patent Trial and Appeal Board, et al.) by emailing, in the client's native language, the requisite 37 C.F.R. § 11.58 notices and information (including a copy of the Final Order that has been correctly translated into the client's native language) to:
- (1) the email address for each client and, if applicable, the email address as set forth in the "Applicant's Information" portion of each client's trademark application, but only if such email address is an email address belonging to the client and one that Respondent reasonably believes to which the client has direct access (*i.e.*, not the email address belonging to a foreign referring entity);
 - (2) an email address belonging to the client and one that Respondent reasonably believes to which the client has direct access (*i.e.*, not the email address belonging to a foreign-domiciled third person or a foreign domiciled entity who referred the matter to Respondent); or

(3) the foreign-domiciled third person or a foreign-domiciled entity who referred the matter to Respondent, but only if:

(i) Respondent takes reasonable measures to ensure that the foreign-domiciled third person or a foreign-domiciled entity thereafter promptly forwards Respondent's email to the client with the translated Final Order attached and Respondent is copied on the forwarded email;

(ii) Respondent takes reasonable measures to learn from the foreign-domiciled third person or a foreign-domiciled entity that the client actually received the Respondent's email and translated Final Order forwarded to the client;

(iii) Respondent's affidavit submitted pursuant to 37 C.F.R. § 11.58(d) sets forth the details of his reasonable measures that are required by subparagraphs (3)(i) and (ii) immediately above; and

(iv) any petition for reinstatement filed by or on behalf of Respondent sets forth the details of his reasonable measures that are required by subparagraphs (3)(i) and (ii) immediately above;

Duties and Responsibilities Respondent Does Not Have Unless a Petition for Reinstatement of Respondent is Not Granted Within Ninety (90) Days of the Final Order

p. Respondent shall not have the following duties and responsibilities as a consequence of being disciplinarily suspended on ethical grounds, unless a petition for reinstatement of Respondent is not granted within ninety (90) days of the Final Order:

Attachments: US Mark Serial #s_SciNova_2020.11&12.pdf

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Commissioner,

Attached please find a list of U.S. Serial #s for trademark applications submitted in November and December 2020. Although these applications had been reviewed and represented by me, it is believed that someone other than me entered my electronic signature when they were submitted to the USPTO.

These trademark applications and their signature deficiency have already been reported to the OED and TEAS of the USPTO. To serve the best interest of applicants and mitigate the damage caused by this signature deficiency my firm and I are considering and plan to take allowable measures to correct the deficiency and verify these applications as soon as appropriate.

Please advise on appropriate steps, if any, to address this issue and move forward. Thank you.

Best regards.

Dears,

I did not signed this paper to change the Primary Email Address for Correspondence.

I'm sure Francis H. Koh of Koh Law Firm, LLC made this fake file. I'm worried if this change happened this time. My trade mark will be sold next time.

I hope to keep my email, nothing changed.

Best regards!

Good afternoon Zhiqing Wang,

Thank you for your message concerning a potentially unauthorized change of correspondence.

The submission on August 28, 2022 named Francis H. Koh of Koh Law Firm, LLC as the new attorney of record. The appointment was apparently signed on paper by you (or somebody claiming to be you):

Change Address or Representation Form

Owner/Holder: I hereby confirm that I am either: (1) the owner(s)/holder(s); or (2) a person or persons(s) with legal authority to bind the owner(s)/holder(s).

That the aforementioned Change of Attorney/Representation filed before the USPTO is true and correct.

The signatory being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements and the like may jeopardize the validity of the application or submission or any registration resulting therefrom, declares that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.

Signatory's Name Wang, Zhigang
Signatory's Position Owner

Can you please clarify for us if this is your personally handwritten signature and whether you have appointed Francis Koh as your attorney? If Mr. Koh was properly appointed, we note that once an attorney is properly appointed, "the Office will correspond only with that attorney" such that a change in primary correspondence address would be expected. See 37 C.F.R. § 2.18(a)(2).

If the Change of Address or Representation form was not signed by you, it would be helpful if you could provide more information about the agency you believe may have submitted this form.

Best regards,
